DIY Adjustable Headband & Crown Instructions

1. PRINT

Print the PDF on white cardstock at 100% actual size (not “fit to page”).

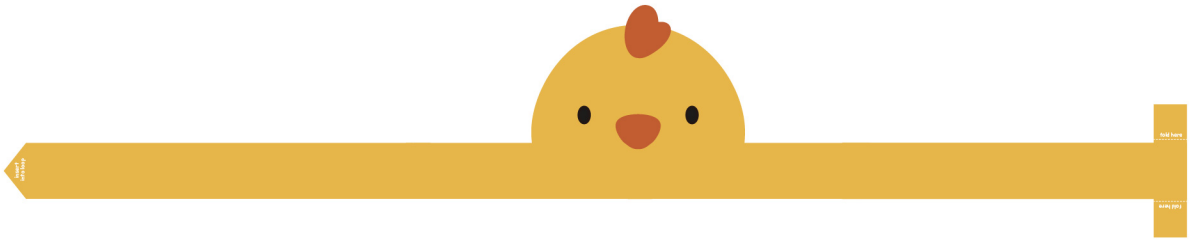

2. CUT

Cut out all 3 pieces: the front piece and the two side bands.

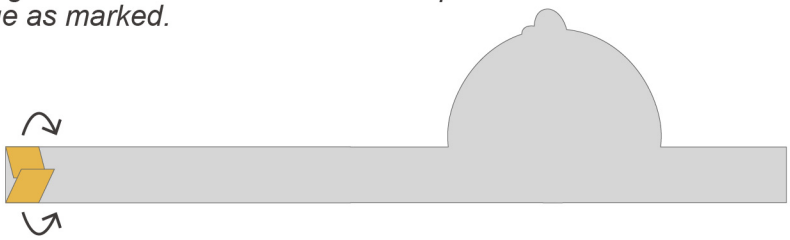

3. ASSEMBLE

Glue or tape the three pieces together to form one long band.
Use the “glue here” labels to attach the left and right sides.

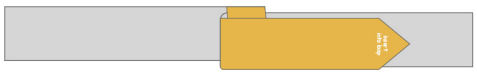

4. MAKE LOOP

On the right end of the band, fold along the dashed lines to create a loop.
Secure the folded tab with tape or glue as marked.

5. FIT & SECURE

Insert the pointed end labeled “insert into loop” into the folded loop.
Adjust the fit to the wearer’s head. Once it fits,
fold the inserted strip back to hold it in place.

6. ENJOY!

Your headband or crown is ready to wear! Perfect for playtime, parties, dress-up, or photo fun.
